

## CLAIMS

What is claimed is:

1. A saw table assembly comprising a work surface having first and second table sections and having a longitudinal axis, a saw track, a mechanism to dispose the saw track in working relation to the work surface, an adjustment mechanism to dispose and hold secure the saw track at an angle to the longitudinal axis of the work surface, including a mechanism to adjust the saw track to a different angle for a subsequent work operation.
2. A saw table assembly as set forth in claim 1, further comprising a saw disposed in the saw track.
3. A saw table assembly as set forth in claim 2, further comprising a saw mounting plate, wherein the saw track further comprises a saw mounting plate track and the saw mounting plate can slide along the saw mounting plate track which then moves the saw across the work surface.
